Educational Resources

The following resources were found as a result of an online search of Safe Routes to School educational materials available across the country. We hope you will find these resources helpful to your Safe Routes to School or bicycle and/or pedestrian education programs. There are many other resources available from states and organizations that aren’t listed here; due to space limitations we could not list them all.

***Disclaimer:** This list was developed through a search of the internet. None of the listed resources have been tested by, nor are endorsed by the California Department of Transportation, or the California Department of Public Health.
